#### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners **University of Guam** Mangilao, Guam

We have audited the financial statements of University of Guam (the University), as of and for the year ended September 30, 2009, and have issued our report thereon dated February 18, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered University of Guam's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Guam's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Guam's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the University of Guam's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the University of Guam's financial statements that is more than inconsequential will not be prevented or detected by the University of Guam's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the University of Guam's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

www.eidebailly.com

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether University of Guam's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non compliance or other matters that are required to be reported under *Government Auditing Standards* except as disclosed in the accompanying schedule of findings and questioned costs as items 2009-1 and 2009-2.

We noted certain matters that we reported to management of University of Guam, in a separate letter dated February 18, 2010.

University of Guam's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit University of Guam's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the audit committee, Board of Regents, the Office of Public Accountability of Guam, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is also a matter of public record.

#### REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Regents **University of Guam** Mangilao, Guam

#### Compliance

We have audited the compliance of University of Guam (The University) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2009. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of University of Guam's management. Our responsibility is to express an opinion on the Organization's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Guam's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of University of Guam's compliance with those requirements.

In our opinion, University of Guam complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2009. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2009-1 and 2009-2.

#### Internal Control Over Compliance

The management of University of Guam is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Organization's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A control deficiency in an organization's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the organization's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the organization's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the organization's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### Schedule of Expenditures of Federal Awards

We have audited the financial statements of the University of Guam, as of and for the year ended September 30, 2009, and have issued our report thereon February 18, 2010. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the University of Guam's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole.

University of Guam's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit University of Guam's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Regents, the Office of Public Accountability of Guam, others within the Organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is also a matter of public record.

#### NOTE 1 – BASIS OF PRESENTATION

The Schedule of Expenditures of Federal Awards presents the activity includes the federal grant activity of the University and is presented on the accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The Schedule of Expenditures of Federal Awards is presented using the accrual basis of accounting.

#### **NOTE 2 – MAJOR PROGRAMS**

Major programs are identified in the summary of Auditor's Results section of the Schedule of Findings and Questioned Costs.

The following program has been identified as major programs for the year ended September 30, 2009:

Program or Cluster	CFDA Number
U.S. Department of Education Direct Programs	
Federal Family Education Loans	84.032
Pell Grant	84.063
Supplemental Education Opportunity Grant	87.007
College Work Study Program	84.033
ACG Grant	84.375
Federal Direct Loan	84.268
U.S Department of Education TRIO Programs	
TRIO: Student Support Services	84.042
TRIO: Talent Search	84.044
TRIO: Upward Bound	84.047
Payments to Agricultural Experimental Stations	
Under Hatch Act	10.203
Cooperative Extension Service	10.500

# Section I - Summary of Auditors' Results

<u>Financial Statements</u> Type of auditors' report issued	Unqualified
Internal control over financial reporting: Material weakness identified Significant deficiencies identified not	No
considered to be material weaknesses	Yes
Noncompliance material to financial statements noted	No
<u>Federal Awards</u> Internal control over major programs: Material weakness identified	No
Significant deficiencies identified not considered to be material weaknesses	None Reported
Type of auditors' report issued on compliance for major programs	Unqualified
Any audit findings disclosed that are required to be reported in accordance with Circular A-133, Section .510(a)	Yes
Identification of major programs:	
Name of Federal Program or Cluster	CFDA number
U.S. Department of Education Direct Programs Federal Family Education Loans Pell Grant Supplemental Education Opportunity Grant College Work Study Program ACG Grant Federal Direct Loan	84.032 84.063 84.007 84.033 84.375 84.268

U.S. Department of Education TRIO Programs TRIO: Student Support Services TRIO: Talent Search TRIO: Upward Bound	84.042 84.044 84.047
Payments to Agricultural Experimental Stations Under Hatch Act	10.203
Cooperative Extension Service	10.500
Special Education: Technical Assistance on State Data Collection	84.373
Dollar threshold used to distinguish between Type A and Type B programs	\$807,866
Auditee qualified as low-risk auditee	Yes

#### **Section II - Financial Statement Findings**

Significant Deficiencies

2009-1 Financial Close Process

<u>Condition</u> – As a result of changes in accounting personnel, the implementation of a quicker close, and an earlier audit schedule, certain adjustments were discovered.

 $\underline{Criteria}$  – The internal control structure should include monitoring procedures that ensure a more timely processing of year end transactions.

<u>Cause</u> – The controls currently in place were not sufficient to detect the misstatements to the trial balance.

Effect – The trial balance provided for the audit was misstated.

<u>Recommendation</u> – The client should examine current controls and make necessary changes to ensure that all adjustments are included in the trial balance.

<u>Management's Response</u> - The General Ledger (GL) at the end of each fiscal year is normally kept open for at least 75 days to accommodate receipt and processing of invoices received from the various departments. This fiscal year end, the GL closing procedures were accelerated to make way for an early audit. The GL closed early November 2009, a month early. This has caused some invoices from other units to be excluded from the Trial Balance and have necessitated the recording of these transactions as adjusting entries instead of as regular entries.

#### **Corrective Action Plan (CAP)**

<u>Actions Planned in Response to Finding -</u> The University shall alert all the units 2 months before the year-end and shall send weekly reminders within 30 days from September 30 to ensure all units are aware of the General Ledger closing deadlines. For invoices received by the Business Office with incomplete receiving documents, the various units shall certify these commitments so that the Business office is able to record them as liabilities as of the end of the fiscal year.

Explanation of Disagreement - There is no disagreement.

Official Responsible for Ensuring Corrective Action - General Accounting Supervisor

<u>Planned Completion for Correction Action</u> - Immediate implementation and reminders 30 days before year end and within 30 days thereafter.

<u>Plan to Monitor Completion of Corrective Action</u> – Reminders 30 days before year end and within 30 days thereafter.

#### Section III – Federal Award Findings and Questioned Costs

2009-2 - CFDA 10.203 - Payments to Agricultural Experimental Stations Under Hatch Act

<u>Condition</u> – During testing it was noted that there was one employee that was being reimbursed under this grant for one hundred percent of their salary; however the individual did not spend one hundred percent of his/her time on this particular grant.

#### Questioned Cost -\$15,709.

<u>Cause</u> – The controls that were currently in place did not detect the incorrect grant coding of the grant expenses.

Effect – The University was reimbursed in excess of the actual expenditures incurred under the grant.

<u>Recommendation</u> – Expenditures submitted for reimbursement should be reviewed to verify that the expenditures being submitted for reimbursement are actually valid expenditures incurred under the grant.

<u>Management's Response</u> - We concur with this finding. During FY2008/2009, the employee in question worked for the principal investigator for the hatch grant "*Characterization of the Species Corynespora Cassiicola and its Impact on Quarantine Regulations*" that expired FY2008. As a result of an oversight, this grant was not extended for FY2008/2009.

#### **Corrective Action Plan (CAP)**

<u>Actions Planned in Response to Finding -</u> No work will be performed until a new Hatch project is approved. Meanwhile, for the coming fiscal year, AES will actively apply for a new grant to address the need for this research work. AES will involve a Grant Accountant to assist in monitoring the grant activity to ensure grant requirements are followed.

Explanation of Disagreement - There is no disagreement.

Official Responsible for Ensuring Corrective Action – Dr. Greg Weicko, Acting Associate Director CNAS-WPTRC

<u>Planned Completion for Correction Action</u> - Continuous monitoring of grant activities throughout the grant period.

<u>Plan to Monitor Completion of Corrective Action –</u> Continuous monitoring of grant activities throughout the grant period.
