Institutional Profile

The University of Guam is an open-admissions, U.S. land-grant public comprehensive university offering on a semester basis 19 master's degree programs, 25 bachelor's degree programs, and several certificate programs in both onsite and online course offerings. These programs are administered by the College of Liberal Arts and Social Sciences ("CLASS"), the College of Natural and Applied Sciences ("CNAS"), the School of Business and Public Administration ("SBPA"), the School of Engineering ("SENG"), the School of Education ("SOE"), and the School of Health ("SOH"). In addition, continuing education unit (CEU) classes, professional development training, and English language training are offered through the Global Learning and Engagement (GLE) Office. The Enrollment Management & Student Success ("EMSS") Division supports student success and student life with services from Admissions & Records, Financial Aid Office, Residence Hall, Student Counseling, Student Health, Student Life Office, and TRiO Programs. Fanuchanan (Fall) 2024 student enrollment was 2,896. The University of Guam has conferred over 20,000 degrees over the past 70 years.

Research is an integral part of our mission, as UOG is a land-grant university. UOG's researchers from the various research units, including the Marine Lab, the Water & Environmental Research Institute, the Western Pacific Tropical Research Center, the Center for Excellence in Developmental Disabilities Education, Research & Service, and the Micronesia Area Research Center, continue to support UOG's Para Hulo' strategic initiative of "being recognized as a RESEARCH UNIVERSITY centered in island wisdom." Through our diverse research portfolio — whether we are studying Karst geology, Guam's aquifer, childhood obesity, factors contributing to cancer health disparities, coral reef health, developmental disabilities, endangered plants, or invasive species — we are contributing to the knowledge and wisdom of our island residents.

Our University holds an impressive national standing for an institution of our size. In the latest data released from the National Center for Science and Engineering Statistics, UOG ranked in the 68th percentile in the nation of institutions for total grant-funded research and development expenditures. UOG's ranking as 294th out of 914 institutions indicates the growth of the research ecosystem at UOG. We are pleased to report that continued progress has been made in our research efforts, and this has been another great year for research and scholarly achievements here at the University of Guam. In FY2022, UOG continued its ongoing grants, including the National Science Foundation–funded EPSCoR-GECCO grant, the National Cancer Institute–funded Pacific Island Partnership for Cancer Health Equity (U54-PIPCHE) grant, the National Oceanic & Atmospheric Administration–funded Sea Grant, and CEDDERS funding. We also received new cycles of NASA EPSCoR Research Infrastructure Development funding and funding for the Pacific Islands Climate Adaptation Science Center. In FY2022, we continued to collaborate with multiple off-island scientists and institutions, provided employment to the local community, and offered students the opportunity to gain valuable research experience. *(ORSP)*

The increase in expenses is primarily due to the operational and maintenance costs associated with utilities, repairs, and supplies, as well as expenses related to the University's core mission. Of the \$134.2 million total expenses in FY2024, \$75.6 million (56%) was directly allocated to the University's core mission. These expenses include instruction (33%), public service (32%), and research (35%). The increase in core mission expenses is primarily attributed to several

factors, including increases in salaries and benefits resulting from the 22% General Pay Plan (GPP) adjustment, faculty salary adjustment and audit adjustments related to the application of accounting standards concerning employee pensions and other post-employment benefits. The rise in the increase in insurance premiums due to external factors contributed to the increase in general expenses.
