University of Guam

A Summary of Student Engagement Results

Student engagement represents two critical features of collegiate quality. The first is the amount of time and effort students put into their studies and other educationally purposeful activities. The second is how institutional resources, courses, and other learning opportunities facilitate student participation in activities that matter to student learning. NSSE surveys undergraduate students in their first and final years to assess their levels of engagement and related information about their experience at your institution.

Comparison Group

The comparison group featured in this report is

Open Admissions

See your *Selected Comparison Groups* report for details.

This *Snapshot* is a concise collection of key findings from your institution's NSSE 2022 administration. We hope this information stimulates discussions about the undergraduate experience. Additional details about these and other results appear in the reports referenced throughout.

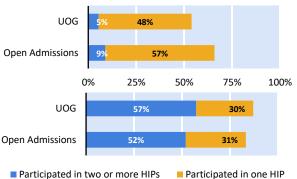

| Engagement Indicators Sets of items are grouped into ten | | Your students compared with Open Admissions | | |

Academic Challenge: Additional Results

The Academic Challenge theme contains four Engagement Indicators as well as several important individual items. The results presented here provide an overview of these individual items. For more information about the Academic Challenge theme, see your *Engagement Indicators* report. To further explore individual item results, see your *Frequencies and Statistical Comparisons*, the *Major Field Report*, the *Online Institutional Report*, or the Report Builder.

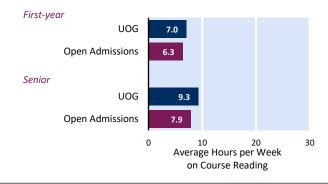

Time Spent Preparing for Class

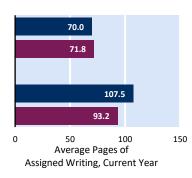

This figure reports the average weekly class preparation time for your students compared to students in your comparison group.

Reading and Writing

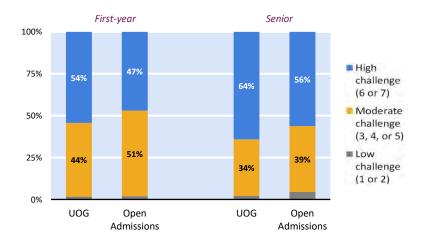

These figures summarize the number of hours your students spent reading for their courses and the average number of pages of assigned writing compared to students in your comparison group. Each is an estimate calculated from two or more separate survey questions.

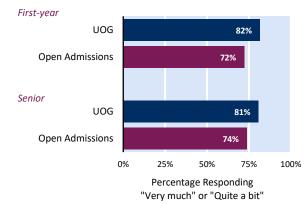

Challenging Students to Do Their Best Work

To what extent did students' courses challenge them to do their best work? Response options ranged from 1 = "Not at all" to 7 = "Very much."

Academic Emphasis

How much did students say their institution emphasizes spending significant time studying and on academic work? Response options included "Very much," "Quite a bit," "Some," and "Very little."

University of Guam

Item Comparisons

By examining individual NSSE questions, you can better understand what contributes to your institution's performance on the Engagement Indicators. This section displays the five questions^a on which your students scored the highest and the five questions on which they scored the lowest, relative to students in your comparison group. Parenthetical notes indicate whether an item belongs to a specific Engagement Indicator or is a High-Impact Practice. While these questions represent the largest differences (in percentage points), they may not be the most important to your institutional mission or current program or policy goals, or equally available to all students. For additional results, see your *Frequencies and Statistical Comparisons* report.

First-year

Highest Performing Relative to Open Admissions

Worked with other students on course projects or assignments^b (CL)

Combined ideas from different courses when completing assignments (RI)

Discussions with... People of a race or ethnicity other than your own^b (DD)

Connected ideas from your courses to your prior experiences and knowledge^b (RI)

Evaluating a point of view, decision, or information source^c (HO)

Lowest Performing Relative to Open Admissions

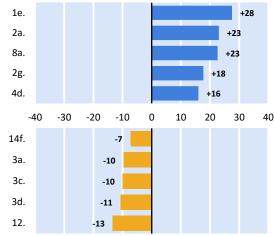

Institution emphasis on providing support for your overall well-being... $^{\rm c}$ (SE)

Talked about career plans with a faculty member (SF)

Discussed course topics, ideas, or concepts with a faculty member outside of class^b (SF)

Discussed your academic performance with a faculty member (SF)

About how many courses have included a community-based project (service-learning)?^e (HIP)

Percentage Point Difference with Open Admissions

Senior

Highest Performing Relative to Open Admissions

Worked with other students on course projects or assignments^b (CL)

Asked another student to help you understand course material (CL)

Discussions with... People of a race or ethnicity other than your own^b (DD)

Discussions with...People with a sexual orientation other than your own

Completed a culminating senior experience (...) (HIP)

Lowest Performing Relative to Open Admissions

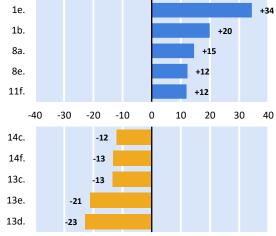

Institution emphasis on using learning support services (...)^c (SE)

Institution emphasis on providing support for your overall well-being... (SE)

Quality of interactions with faculty^d (QI)

Quality of interactions with other administrative staff and offices (...)^d (QI)

Quality of interactions with student services staff (...)^d (QI)

Percentage Point Difference with Open Admissions

a. The items on this page come from the Engagement Indicators (EIs), High-Impact Practices (HIPs), Sense of Belonging (SB), the academic challenge questions on page 2, and four additional questions about effective teaching (new in 2021). Key to abbreviations for EI items: HO = Higher-Order Learning, RI = Reflective & Integrative Learning, LS = Learning Strategies, QR = Quantitative Reasoning, CL = Collaborative Learning, DD = Discussions with Diverse Others, SF = Student-Faculty Interaction, ET = Effective Teaching Practices, QI = Quality of Interactions, SE = Supportive Environment.

b. Combination of students responding "very often" or "often."

c. Combination of students responding "very much" or "quite a bit."

d. Rated at least 6 on a 7-point scale.

e. Percentage reporting at least "some."

f. Estimate based on the reported amount of course preparation time spent on assigned reading.

g. Estimate based on number of assigned writing tasks of various lengths.

h. Combination of students responding "strongly agree" or "agree."

University of Guam

How Students Assess Their Experience

Students' perceptions of certain aspects of cognitive and affective development, as well as their overall satisfaction with the institution, provide useful evidence of their educational experiences. For more details, see your *Frequencies and Statistical Comparisons* report.

Percentage of Seniors Responding

Perceived Gains Among Seniors

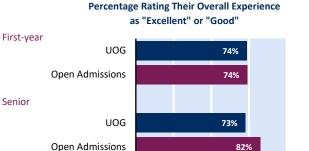

Perceived Gains

Students reported how much their experience at your institution contributed to their knowledge, skills, and personal development in ten areas.

(Sorted highest to lowest) Thinking critically and analytically Working effectively with others Writing clearly and effectively Understanding people of other backgrounds (econ., racial/ethnic, polit., relig., nation., etc.) Speaking clearly and effectively Developing or clarifying a personal code of values and ethics Analyzing numerical and statistical information 70%

Satisfaction with UOG

Students rated their overall experience at the institution, and whether or not they would choose it again.

Response Summary

and skills

| | Count | Resp. rate | Female | Full-time |
|------------|-------|------------|--------|-----------|
| First-year | 287 | 32% | 69% | 91% |
| Senior | 189 | 33% | 67% | 74% |

See your Administration Summary and Respondent Profile reports for more information.

Additional Questions

Your institution administered the following additional question set(s):

First-Year Experiences & Senior Transitions
Inclusiveness & Engagement with Cultural Diversity

See your Topical Module report(s) for results.

What is NSSE?

NSSE annually collects information at hundreds of four-year colleges and universities about student participation in activities and programs that promote their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending their college or university. Institutions use their data to identify aspects of the undergraduate experience that can be improved through changes in policy and practice.

NSSE has been in operation since 2000 and has been used at more than 1,600 colleges and universities in the US and Canada. More than 90% of participating institutions administer the survey on a periodic basis.
