University  
Information:

Water & Environmental Research Institute (WERI)

The University of Guam is the premier institution of higher education in the Western Pacific. It is a land-grant, a sea-grant, and a space-grant institution, accredited by the Western Association of Schools and Colleges Senior Commission. Located in the village of Mangilao on the island of Guam, the campus overlooks the beautiful Pago Bay and the University’s world-class Marine Laboratory and Water and Environmental Research Institute of the Western Pacific. The University has 3,400 students, 47% of Asian ethnicity and 45% of Pacific Islander ancestry, providing a uniquely diverse campus and multicultural atmosphere. As a regional, comprehensive, open-admissions institution, the University awards degrees at the certificate, baccalaureate, and master’s levels through its two colleges and four professional schools. The University also offers a professional doctorate degree in Instructional and Academic Leadership (its first-ever online doctoral program) through the School of Education. The institution’s mission of Ina (to Enlighten), Diskubre (to Discover), Setbe (to Service) serve as the foundation for the institution’s Tulos Mo’na strategic plan, with its vision to transform lives and advance communities as a land-grant, a sea-grant, and a space-grant university. One of the university’s key strategic initiatives is to be recognized as a research university centered in Island Wisdom. Island Wisdom acknowledges that Pacific ways of knowing and Western models of higher education are central to the institution’s teaching, research, and service endeavors, and that balanced consideration of the ideas that emerge from them is essential to the prosperity and sustainability of island communities. Through its robust research portfolio fueled by extramural funding from competitive grants and contracts, the University delivers public value through dedicated and capable administration, faculty, students, and staff. As a complement to the research carried out at the institution, the University of Guam has an active press dedicated to publishing research and writing about Guam and Micronesia. A variety of publishing opportunities are available to UOG faculty, employees, students, and members of the communities we serve through the University of Guam Press. UOG is a safe and secure campus, where the institution places paramount importance on the physical, intellectual, emotion, and spiritual wellbeing of its students and employees. It fosters open dialogue and collegiality based upon mutual respect for diverse perspectives. The university has enacted processes to ensure the physical safety of the campus (most recent information may be accessed at <https://www.uog.edu/safety-security/>) and a policy that encourages open dialogue and respect for all points of view. Community responsive academic programs, robust research agenda, ample publishing opportunities, and commitment to community make the University of Guam an exciting place to be for many years to come.

General  
Description:

The University of Guam is looking for an individual who is interested in new challenges and opportunities for professional and personal growth. This position calls for someone who is self-motivated and adaptable, intelligent, possesses a global vision and who is interested in working in a dynamic, multicultural institution.

Unit Description:

WERI was established in 1975 as one of the nation’s 54 National Institutes for Water Resources Research. Its mission is to conduct water resources research, professional training, and public outreach for Guam, the Federated States of Micronesia (FSM), and the Commonwealth of the Northern Mariana Islands (CNMI). Accordingly, its faculty support the university’s graduate Environmental Science program and provide training for professional and technical staff in local and regional government agencies and private firms. WERI faculty collaborate with external university researchers and with University of Guam faculty in other units, including its new School of Engineering. The institute has seven faculty, with a broad span of expertise in earth science and water resources engineering, and is equipped with a Water Quality Analysis Laboratory and a state-of-the-art Geographic Information System Laboratory.

Character of  
Duties:

WERI seeks a waste management specialist who is familiar with, or prepared to master, waste management plans for Guam, the FSM, and the CNMI. The successful candidate will be expected to establish and lead a vigorous research program addressing both basic and applied science, engineering, and policy aspects of solid and hazardous waste management, including landfill design, gas flux, leachate controls, and waste recycling in relation to surface water and groundwater protection.

This is a research faculty position. The successful candidate will be expected to develop and lead a research program supported by external funding and collaboration with co-investigators from outside institutions as well as local colleagues. At WERI, the candidate will work with multidisciplinary teams of scientists, engineers, and graduate research assistants on basic and applied problems related to the water resources of Guam, the FSM, and the CNMI. Primary duties include initiating and conducting research projects, contributing to graduate instruction in the University’s Environmental Science Program, advising thesis research, and mentoring students pursuing Master’s degrees in environmental science. The position may involve site visits to water resources throughout the island; therefore, a driver’s license is required.

Qualifications:

**Minimum:** A Ph.D. in Environmental Engineering and Science or a related field such as Civil Engineering, Geotechnical Engineering, or a closely related discipline from a U.S. regionally accredited institution or foreign equivalent WERI seeks an early- to mid-career waste management specialist with interest and experience in waste management as it relates to water pollution and water resource protection. The candidate should be interested in mastering waste management issues in the region and making a long-term commitment to WERI and the University of Guam. Must be willing to teach online.
