QUESTION & ANSWER SHEET NO. 1
January 25, 2023

In response to the written "Questions" and/or 'Request for Clarifications' UOG received as of January 19, 2023 @ 12:56pm from vendor: James Tan

Question 1: Can we specify that "After Market parts are allowed as replacement" this is inconsideration that all Equipments on the list are deemed Retired or End-of-Life by the Manufacturer, and are no longer in production. Getting "new" product is not feasible.

Also, are we able to include that remote access for monitoring on the purpose of maintenance and early identification of issues will be allowed.

Answer: UOG confirms, we will allow "After-market" parts for equipment that is deemed retired or "End-of-life" AND no other sources or stocks exist for the part as "NEW". In the event there are sources and/or stock as "New" manufacture part(s), vendor will provide the manufacture part over the "after-market" part.

All parts will be compatible and working to existing equipment.

Limited Remote Access can be allowed on a case-by-case basis at the discretion of UOG.
