The location of the pre-bid conference & site visit was at the School of Engineering. Attendees were asked to sign in. Yosko explained that the meeting is being recorded and was called to order at 10:40 am. After the introductions of everyone attending, she explained a few housekeeping notes:

- All questions and answers are not official unless officially communicated through the procurement office via [uog.bids@triton.uog.edu](mailto:uog.bids@triton.uog.edu)
- Not accepting alternate bids
- Deadline for submissions is due on Wednesday, February 18, 2026, on or before 2 pm.

UOG is looking to install internal network cabling and Wireless Access Points in the School of Engineering Building. The cabling needs to be structured, scalable, and easy to maintain.

The goals of this project are:

1. Install new network cabling infrastructure to a minimum of Category 6A
2. Install cabling infrastructure to allow for ease of scalability
3. Install cabling infrastructure to simplify maintenance and troubleshooting
4. Document the raceway and pathways of the upgraded cabling infrastructure
5. Install and mount UOG provided Wireless Access Points

The conference was turned over to Vince to discuss the details of the scope of work needed in this IFB. He is looking for a vendor to install wiring for the School of Engineering. This is essential so it can provide internet access and security cameras inside the school. The wiring should be run across the walls and ceilings in all rooms using raceways for easy management and protection. The wiring should not be tied to the ceiling pipes as a matter of convenience; it should be properly secured against the roof. We proceeded to show the vendors all the rooms that will have the drops and wirings on the 1<sup>st</sup> and 2<sup>nd</sup> floor. The meeting was concluded at 11:35 am.
