QUESTION & ANSWER SHEET NO. 1
June 20, 2022

In response to the written "Questions" and/or 'Request for Clarifications' UOG received as of 6/15/22 @ 12:04pm from vendor: Net Circuit DBA New Horizons/ COMPACIFIC

Assisting with ransomware recovery at the University.

Question 1:   What is the expectation of the university's recovery?

Answer: **UOG confirms all systems and services back online with protection and confirmation of no vulnerabilities at the time of inspection/penetration testing.**

Question 2:   In general cases Ransomware recovery is highly complex, Would it be ok if we were to run a diagnostic check on the systems and validate the recovery?

Answer: **UOG confirms - Yes.**

Performing black box penetration testing for the University – with the deliverable being a report
describing the results of the tests and laying out a plan for addressing the vulnerabilities identified.

Question 3:   What is the total number of Hosts that we will be testing in the network i.e Servers. / Routers ./ Switches / Web Applications

Answer: **UOG confirms: 10 Routers, 141 Switches, 200 servers / Web Applications, & 1000+ Workstations**

Question 4:   Are there any critical servers that requires special testing time

Answer: **UOG confirms** - yes, each server will need to be scheduled accordingly.

Question 5:   Would the testing be allowed from a Local Area Network

Answer: **UOG confirms - yes.**

Question 6:   Are there any limitations on the types of tests that can be conducted

Answer: **UOG confirms if a test is known to put high CPU strain on the hosts that it will test against, hours are preferred. This is most applicable to servers.**
