

Submission Procedures

Include the following on a separate page: your name, title and affiliation, addresses (including street and e-mail addresses); abstract of the paper; and the manuscript. Our blind peer-review process requires that author names and addresses appear only on the cover page. It is important that no identifying information appear in the paper itself. Authors must follow the conventions of the *Publication Manual of the American Psychological Association* (6th ed., 2009), or the *MLA Style Manual and Guide to Scholarly Publishing*, (3rd ed., 2008). Articles are accepted for review with the understanding that they are not being considered, in whole or in part, for publication elsewhere and have not been published previously. Enclose a memo stating whether or not the essay has been published previously or is being considered for publication in another journal or medium. This is a venue primarily designed for scholarly essays and reports. The *Storyboard* publication of the College is recommended for proposed fiction or poetry submissions (csscamel@yahoo.com).

All authors will be notified regarding the status of their submittal. If your contribution is accepted, the Editor will provide you with additional instructions for your revisions and camera-ready formatting.

*Inquiries and Submissions must be forwarded **electronically** (Microsoft Word, .doc) to:*
